[The Feasibility Study in Information Systems: an Analysis ...](#)

A feasibility study/analysis aids in evaluating the suitability of a single or multiple proposed system

solution(s) to an identified business problem according to a set of criteria. The set of criteria may be explicitly or implicitly applied in the evaluation of the system proposals.

Feasibility Analysis in System Development Process

At the end of feasibility analysis, the feasibility analysis report is given to the management along with the oral presentation. Types of Feasibility During feasibility analysis, the analyst considers the three main types of feasibility technical, economical and operational feasibility, all of which are interrelated.

The feasibility study in information systems: an analysis ...

The feasibility study has been prescribed and described as an important step in information system development. Yet there has been little research on issues pertaining to its contents and criteria.
