**New Thinking in Complexity for the Social Sciences and**

This book focuses on the development of new thinking in complexity and on the tools needed for this new thinking, i.e. the development of a new language for complexity. This new language is very much about how a nonlinear complex reality is part of real-world complexity. We can start thinking in complexity about the complex topics of our social sciences and humanities by making use of this new

**New Thinking in Complexity for the Social Sciences and**

J rg doesn't deal with structure at all, and that is a strange thing in a book addressed to reconfiguring the social sciences in complexity terms. Which brings me to the most important element in the book, an argument with which I wholly agree that it is essential to establish a new framing for our thinking about causation and that a complexity frame of reference provides us with a way of
