The bigger question is why you would get that encoding in the first place. The country code should be just two alpha characters and looking at the above it doesn't seem like a newline would be introduced in the form, so my guess is that the new-line actually exists in the database entry for Code and should be cleaned up.

Where Did I Come From? by Peter Mayle - Goodreads

I cannot believe this book is written by the same Peter Mayle who wrote A Year in Provence! HAHAHAAAA! I like that this book exists. It's written for children and explains where babies come from in a very straightforward way.
